Note: For each class of shares issued by a proprietary company, ASIC records the details of the top twenty members of the class (based on searchholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked among the top twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.
