# Letter of confirmation

## DSP Operational Framework compliance

This letter is to confirm that **Information Brokers Pty Ltd – IB ABN Registration Services** has suitably demonstrated their compliance against the requirements of the Digital Service Provider (DSP) Operational Framework (the Framework).

The Framework sets the minimum level of requirements a DSP needs to meet in order to consume ATO services. By implementing these requirements we seek to ensure that both the ATO and DSPs have controls and mechanisms in place to protect tax, payroll or superannuation related information.

An annual review of the DSP product adherence to the Framework is undertaken, ensuring ongoing compliance with the requirements and suitability for whitelisting. The review date for IB ABN Registration Services is May 2020,

Further details on the Framework requirements can be found at <https://softwaredevelopers.ato.gov.au/RequirementsforDSPs>
